Authorized as second class mail, GLEICHEN, ALBERTA, WEDNESDAY NOVEMBER 11, 1953 SUBSCRIPTION \$2.00

Laurence Sheets Killed In Car Accident Saturday

Laurence Sheets, was killed Saturday morning when a truck in which he was riding collided end-on with a semi-trailer transport truck about three miles south of Ponoka, Alta. Two other men in the truck were taken to the hospital in Red Deer suffering serious injuries. The three were employed by the McGregor Power and Telegraph Co. The transport was only slightly damaged while the truck was practically demolished.

Laurence is the son of Mrs. Sheets who farms north of town and had been home recently harvesting his mother's crop. A year ago last January Mrs. Sheets lost another son who was killed in an accident.

The funeral takes place this afternoon with services held in Gleichen United Church with Rev. W. Morrison officiating and burial taking place in the family plot in the local cemetery.

CHARACTERISTICS OF FORAGE CROPS

Experimental Farm Notes.

Have you any waste land, alkali spots, seepage areas, or weedy pastures? If you have, there is a forage crop to meet your needs.

Let's take a few forage crops and see how they would help reclaim some of these non-productive areas that are present on every farm. We can start with crested wheatgrass, a hardy, drought-resistant perennial that is very useful in the drier parts of the province. Crested wheatgrass is ideal for early spring pastures; it tends to green up and make pasture with fall rains, it will grow even under poor conditions such as those encountered in road allowances, and it will make good hay if cut as soon as fully headed. Russian wild rye is similar to crested wheat grass. It is a little more leafy and it stays green a little longer in the spring, but it is not quite as dependable a yielder.

Bromegrass is another hardy perennial, but tends to become sod bound in four or five years. However, the addition of alfalfa may overcome this tendency. Broomgrass is leafy, tall growing, very productive where moisture is available, and makes excellent spring and summer pasture. It also makes good hay if cut at or before flowering.

Timothy, while very short-lived is so well adapted to this country that it is worth considering. It, too, is leafy, tall growing, very productive, and makes good spring and summer pasture. Like bromegrass, to make good hay timothy must be cut before flowering.

Reed canary grass is ideal for flooded areas which are not too alkaline. It is leafy, very tall growing, and though somewhat coarse makes fairly good hay or pasture.

Red top is much like reed canary grass in that it will withstand up to eight weeks of flooding. Red top, however, is a finer leaved, shorter-growing, hence less productive grass than reed canary.

Tall wheatgrass is another specialized forage crop. It does well on areas where a high water table and alkali are present in a field. It is a tall growing, fairly coarse perennial, but does make fair hay or pasture. Tall wheatgrass is our most alkali-tolerant forage crop.

The stenographer was making a collection for a companion who was about to enter matrimony. She approached one of the male clerks and said, "We're going to give the bride a shower."

"Count me in," exclaimed the clerk, "I'll bring the soap."

Whether you consider the world square, round, flat or crooked depends on what part you have bumped against.

The hourly rate for construction workers in Canada stands at 14.4 cents an hour.

The story of the show business Trans-Canada net work every week. The programs are based on the personal experiences of that fabulous showman, Jack Arthur, who does the narration. With him is Howard Cable and his orchestra, and a host of top singers and actors. Here he talks to dancer Janet Macrae.

News Items of Local Interest

Sr. Major and Mrs. A. F. Parkinson, superintendents of Eventide Home, are leaving Monday evening for Galt, Ontario, to take charge of a hospital in that city.

Angus McLeay was taken ill one day last week and latter removed to a Calgary hospital.

Town Engineer Jack Lester and his helpers W. Boos and L. Brown are laying a water and sewer line to Herd's Store. They expect to do the job in a few more days.

The trap shoot staged Sunday by the members of the Gleichen Legion proved to be a very successful affair. Every competition was keenly contested. The main event a dressed hog had a large entry of more than thirty. It was a miss and out affair. The first round saw five or six fall out the next round the same. At the end only two entries were left namely J. Schmidt of Calgary and Leslie Menard of Gleichen. After the first couple of rounds in which neither missed they decided to call it a day and split the prize.

The underpass or bridge on the Trans Canada highway which was burned out about a week ago has been repaired and traffic is now going over it. At the time it was out one car driver ignored the traffic signs and wrecked his car when it went into site of the burnt out bridge. He and his companions were slightly hurt. Meantime all traffic was routed through town and created clouds of dust and traffic hazards.

Mr. T. B. Northfield, Optometrist, will be at the Queen's Hotel in Gleichen on Thursday afternoon November 26th. For the purpose of examining eyes, etc. Calgary office 514 Greyhound Building.

In any kind of a buying campaign that may be inaugurated and encouraged, we believe it is good time to preach the healthy doctrine of staying within one's means, and to be mighty careful about making debts against anticipated incomes. To often something can happen to upset what may be thought to be a fixed source of income, be it at wages or revenue from some form of property also emergencies may arise that call for an unexpected outlay of money, leaving a person unable to meet contracted obligations.

Quite a few old time Gleichen friends attended the golden wedding anniversary of Mr. and Mrs. Roy Allen at Vulcan last Wednesday afternoon. Mr. and Mrs. Allen were residents of Gleichen for a number of years on several occasions, arriving here in 1906. They farmed for years at Queenstown and several years ago moved to Vulcan where they have a large home. During last Wednesday several hundred visitors called to

wish them many happy returns.

The poppy sales in Gleichen this year was a great success according to the members of the local Legion. Some forty five large wreaths have been sold besides hundreds of small flowers.

The main aim of the weekly newspaper as the name implies, is to give news of its own district. It may have other aims, such as to give the business men a chance to tell of their wares in its columns or to try to influence public opinion through its editorials; but first of all it must give the news. Some of this news is not easily obtained and no editor can cover it all without assistance. Especially is this true when you have visitors. Many of the ladies think that personals are the most interesting reading in the whole paper. Your visitors are usually glad to have their names appear, so send them in. Sometimes people come in and give the impression that they are asking a favor when they want us to insert the names of their friends who have been spending a few days with them. No person need feel that way about giving us news items for we are glad to get them all.

Every Canadian would benefit greatly from knowing and using two or more languages. In the English speaking provinces, we use the clumsy words "Agricultural Representative" to designate the person who coordinates the work of the agricultural scientists with the work of the agricultural producers. In Quebec he is called "Agronomist." In dictionaries of the English language Agronomy is defined as "rural economy, husbandry." Agronomist is a melodious and fitting word. If it were used in every province of Canada it would symbolize the most useful service rendered to agriculture and the harmony that is finding wider expression among those of good will who realize the personal advantages of using both the languages of our principal origins.

A delegate was attending a convention away from home and as usual, he was staying in a hotel. After a couple of days and nights he became quite weary and bored. To relieve the tedium he opened the Gideon Bible that had been placed in the room. Pasted on the inside cover was a sheet that said: "If you are lonely and discouraged read Psalms 23 and 27" He turned to the 23rd Psalm and read it through. Turning the page to read the 27th Psalm he noticed a penciled note in the margin, written in a scrawled feminine hand. "If you are still lonely," it said, "phone 2872."

Canadian farmers had a net income from farming operations in 1952 of \$1,949,000,000.

United Church W.A.

The November meeting of the U.C.W.A. was held at the home of Mrs. Warner with 25 members and four visitors answering the roll call. President Mrs. Pugh opened the meeting with a prayer, repeating the creed and singing of a hymn song.

Mrs. R. W. Brown gave the devotional and Mrs. M. W. Bolinger prepared and read a paper on a woman of the bible Delilah. The different committees gave their reports. Letters were read and a donation is to be sent to the Christian Leadership Training School at Naramata, B. C. also the allocation for 1954 was taken care of. The carpet for the choir loft was settled by a 14 to 6 vote in favor.

Final arrangements were made for the annual bazaar which will be held on November 28th in the Recreation Centre.

The meeting adjourned by repeating the Mizpah Benediction. A social hour followed which was much enjoyed.

Considering the great spread of the bridge-playing industry, it is strange that none of our legislators have had any laws passed for its regulation. Now comes a suggestion that players be compelled to pass an examination before being licensed to indulge in the game. The suggestion comes from an editor, whose zeal for the public welfare was aroused by a report of a wife who shot her husband. The victim was also the lady's bridge partner, it appears, and when he bid one spade and another player plunged on a different suit the wife raised to four spades. The husband was set and blamed the wife for reckless bidding and as a result of the argument shot him. Now the aforesaid editor asserts all persons who aspire to play bridge should be caused to pass a rigid test, not with reference to their skill, but to determine their mental poise. If the applicant is unable to be set or have an ace trumped without showing undue emotion, a license should be denied. The trouble is that such a law if enforced would practically eliminate all who take the game seriously.

More than \$1,000,000 worth of paper millinery, garment and laundry bags are produced annually in Canada.

AWARDED VICTORIA CROSS: Lt. Col. James P. Carne, leader of the "Glorious Gloucesters" during their epic Imjin River battle in Korea in 1951, who has been awarded the Victoria Cross. He is the third Commonwealth soldier to receive Britain's highest award for valor during the Korean war. Col. Carne returned home only last month after having been freed by the Communists in the prisoner exchange following the armistice.

Rebuilding And Replacement Process In Farm Machinery Is Rapid In Prairie Provinces

Recent figures studied by the Economics Division of the Department of Agriculture indicate that the post-war rebuilding of machinery inventories arising from wartime shortage of materials is almost complete in the Prairie Provinces but is still lagging to some extent in the rest of the country. Although the number of horses on farms has been declining steadily since about 1930, the drop has been much accelerated since the war.

Evidence provided by trends in farm machinery sales show that this rebuilding and replacement process has taken place more

rapidly in the Prairie Provinces than elsewhere in Canada. While the value of all equipment sold reached a peak in 1952, tractor sales were at a high point in 1949 and have declined steadily since. Most of the drop in total sales is accounted for in the Prairie Provinces while sales were almost as high in the remainder of Canada in 1951 as in 1949. Sales in the remainder of Canada dropped considerably in 1952. The significance of these shifts in Prairie Provinces lies in the fact that machinery sales dropped considerably while the level of income in the hands of farmers was quite favorable and outstanding farm debt was declining.

In general since 1936, there has been considerable expansion in the portion of total expenditures on harvesting equipment, both grain and hay, and on miscellaneous equipment with a decline in the proportion spent on seeding and tilling equipment. The proportion spent on tractors has remained about constant over this period. Haying and harvesting equipment has been almost wholly responsible for the increase in the total value of machinery sales from \$217 million in 1949 to \$250 million in 1952. Sales of heavy tillage equipment have risen considerably but these represent a small portion of the total.

There has also been a marked shift back to standard type tractors reflecting considerable improvement in the design of this type in recent years. For example, 1952 sales of standard tractors were about 93.5 per cent of 1949 sales, while the row-crop type dropped to 33.3 per cent of sales of the same type in 1949. In 1952 sales of the row-crop type were less than one-quarter of those of standard classification. There has been a large increase in the proportion of sales of tractors of the 3-4 plow and larger sizes between 1949 and 1952.

Pulp, Paper Industry Seen For Sask. Through Signed Agreement

REGINA.—An agreement has been signed between the Saskatchewan government and the Anglo-Canadian Pulp and Paper Mills Limited of Quebec City, which may result in the ultimate construction of a pulp mill in the province, it was announced today in a joint statement from Hon. J. H. Brockelbank, minister of natural resources and H. D. Ruthman, secretary to the company.

The agreement gives the company a one-year option on a 2,000 square mile area of pulp wood timber land in the vicinity of Candle lake, which is situated about 50 miles northeast of Prince Albert, and provides that the company shall pay a ground rental fee of \$10,000 on the area for the option year.

Under the terms of the agreement Anglo-Canadian will, on or before September 30, 1954, advise the Government whether or not it will accept the option on the leased area. Should the company accept the option the company would thereby agree to commence construction of a mill by June 1, 1955, and to spend \$5,000,000 on actual construction during the succeeding year.

The agreement further provides that the mill will have an initial capacity to process a minimum of 100,000 cords of pulpwood per year from spruce, jackpine and popular stands in the leased area. To provide for normal expansion

Recent Excavations In Manitoba Shed New Light On Canadian History

MONTREAL.—Recent excavations at Lockport, Man., by a National Museum archaeological expedition shed new light on Canadian history prior to the arrival of the white man. The excavations, some 18 miles northeast of Winnipeg, indicate that Indians may have come to Canada much earlier than was supposed by some authorities.

Jerry Zaborski, a member of the archaeological party, said here the excavations disclosed five Indian villages, built one on top of the other.

The earliest village, which may date back 10,000 years, was in-

Firing Range Now Under Construction

The RCAF's new air weapons firing range, now under construction at Grand Centre, approximately 180 miles northeast of Edmonton, Alta., is expected to be ready for use by the summer of 1954.

The first of 45 major buildings at the new air base—which is part of the air firing range—are nearing completion and will shortly be taken over by the air force. One fighter squadron will operate from it on a rotation basis to give all squadrons air weapons training.

In addition, a completely self-contained townsite settlement is planned to provide living accommodation for approximately 2,000 airmen and technical personnel who will be training and working there.

The range area, which extends over portions of Alberta and Saskatchewan will be used to train pilots in air-to-air rocket firing. The new site is not a guided missile range insofar as ground-launched weapons are concerned.

The site, which is easily accessible to railroad communications, will take care of all foreseeable developments in air weapons in the immediate future.

Under the lease agreements with the Alberta and Saskatchewan governments certain provisions have been made for periodic exploitation of the natural developments of the 4,000-square-mile area.

POLICE CHIEF GIVEN TICKET

WINNIPEG, Man.—Police Chief Chris Eineld of suburban East Kildonan, visiting in Winnipeg, got a ticket for illegal parking.

"It's nice to see the city officers are on their toes," Eineld said as he paid a \$1 fine.

ALL THE COMFORTS

BASSANO, Alta.—A contingent of Calgary pheasant hunters provided their own accommodation when they found hotels full. They installed bunks in a special bus, travelling to different areas and sleeping in it in the fields.

Storage Unit Buffet Pattern 226

The flush finishes and tapered legs of this modern dining table distinguish it at first sight as a strictly custom built job. The top is of walnut-surfaced plywood contrasting smartly with the edge frame and legs which are of light pine. For use in a kitchen alcove or a snack room a more practical top would be one of the bright colored panel materials with plastic chair seats to match. The table is thirty-one and a half inches wide and four feet long. The construction drawings show each member separately and just how they go together. There are also large clear drawings for making the extension slides for those who want to use an extra leaf. The patterns are 35c each. Order 225 for the table and 224 for two types of chairs.

Use these four units wherever storage space is needed. They may be used as separate units or combined as found most convenient. As illustrated they form a handsome buffet and china cabinet with base sixty-three inches long. The drawers and door fronts are of three-quarter inch plywood with tops and framing of solid pine. There are many beautiful plywood available at all local lumber yards and they come in a wide range of prices so before buying the material decide whether you want to use the cabinets for out-of-the-way storage or as decorative pieces. The directions on the pattern are illustrated with large three dimensional drawings. The pattern number is 226 and the price is 35c.

OUR COMPLETE SHORT STORY

A Rolling Stone

By MAUDE NORMAN

PASSING through the village, The buyer wants to enter her in the show."

Roller stopped to listen to the girl talking to a group of men in front of the general store.

"Fifty dollars," she said, "I'll give fifty dollars to anyone who'll drive the trailer to Hopeville."

The men were silent. Some glanced at the short, heavy figure of a man standing in the doorway, watching the girl with speculative eyes. Roller moved nearer.

"Come on, men, what do you say?" the girl urged. "Sam Peters, father helped you."

Peters fidgeted. "I'd sure like to," he muttered, "but it's against the rules. I'd be fined more than you'd pay."

"Why don't you drive yourself," the man in the door demanded, "instead of trying to bribe your neighbors to go against the Association?"

"Joe Collins, that's not fair," she cried. "I'm not trying to bribe, just trying to hire someone to drive me to Hopeville. I promised Mr. Reynolds I'd have the filly there by Sunday. As for driving myself, I wish I could."

"If you'd be sensible and join the Association, you'd get a driver easy."

"The girl flushed. "I have nothing to say about it. It's my father's farm—and stock. Who's going to get your rules for once?"

"They'd better not," Collins warned.

"Oh, what's the use?" she said, wearily. "You and your Association!"

Roller moved forward. "I'll take the job, Miss."

Joe Collins swung around. "Who are you, butting in?"

The girl looked at Roller. He was tall and lanky, his old army jacket faded. His hair needed cutting but his eyes were steady.

"On your way, bum," Collins ordered.

The grey eyes turned steely. "My business is with the young lady. And the name's Roller."

"It's quite a walk," the girl said, "and as you see, I can't drive."

Moving off, he looked at her bandaged hands.

"The barn caught fire. I was burned, getting the horses out."

"How'd it start?"

"I don't know. I'd better warn you, Mr. Roller. You face trouble, accepting my offer."

"I've seen trouble before," he drawled. "What's the set-up?" He liked the set-up he saw.

The farm, where they turned in, bore a sign on the barn, "Robert Stevens and Son, Breeders of Fine Horses." One end of the barn was blackened by fire.

"I'm Emily Stevens," she said. "My father's in hospital. He fell from the mow."

"And Son?" he repeated.

"He died, overseas."

"I'm sorry . . . Who is Collins?"

"Head of a Protective Association. My father refused to join. Said there was no need of protection around here." She shrugged. "You see how the men fear him."

"Think he had a hand in the fire?"

"It doesn't matter what I think. The law requires evidence. He knows we need money. That is why I have to deliver the filly."

If You're TIRED ALL THE TIME

Everybody gets a bit run-down now and then, tired-out, heavy-headed, and maybe bothered by headaches. Perhaps nothing seriously wrong, just a temporary toxic condition caused by excess acids and wastes. That's the time to take Dodd's Kidney Pills. Dodd's stimulates the kidneys, and as help restore their normal action of removing excess acids and wastes. Then you feel better, sleep better, work better. Get Dodd's Kidney Pills now. Look for the blue box with the red band at all drugstores. You can depend on Dodd's. 52

Helps You Overcome

Itching of Piles Or Money Back

You do not have to be tortured and embarrassed by the itching soreness and burning pain of piles any longer. There is real help for you.

Get a package of Hem-Roid, an internal pile treatment, at any drug store and use as directed. You will be pleased at how quickly your pile trouble is relieved. Only \$1.50 for the big 60 tablets. If you are not 100% pleased after using Hem-Roid 2 or 3 days, as a test, ask for your money back. Refund agreement by all drug stores.

SASKATCHEWAN OIL PRODUCTION SHOWS INCREASE

Production of crude oil in Saskatchewan at the end of August was over 600,000 barrels more than the amount produced during the same period last year.

Total drilling footage for the first eight months of 1953 amounted to almost 1 1/2 million feet. Forty-six drilling rigs were active during the month, two more than in July.

Eighteen new oil producers were noted during August, one potential well was completed, and 35 wells abandoned. Seventy-seven drilling licences were issued.

Natural gas production during August was 87,020 (MFC). The total for the first eight months of 1953 was 780,505 (MFC).

A pound of coffee is the product of about 3,500 coffee beans.

Amazed At Growth Of Peace River Country

GRANDE PRAIRIE, Alta.—Spectacular changes 25 years have brought to the complexion of the Peace River Country were pointed up for A. E. Pequegnat, of Waterloo, Ontario, general manager of Mutual Life of Canada.

Last here in 1928, Mr. Pequegnat said he was amazed at the long strides Grande Prairie and district had taken. He said the growth and expansion of the town struck him particularly forcibly.

Accompanied by A. E. Rieder, actuary of the insurance company, the Eastern executive flew into Grande Prairie for a whirlwind tour of town and district with Ian McIntosh, the company's local representative.

Both officials found the number of fine homes and business establishments in the town particularly impressive.

Mr. Pequegnat commented that he felt Grande Prairie's progress had been built on a firm foundation and that its future looked "bright and secure."

Patterns Keep Cosy, Pretty!

7112

by Alice Brooks

The cap everyone loves—from little girls to grandma! Make it in velvetone, wool, felt—spice it with gay embroidery! Matching mittens for winter warmth!

Pattern 7112: easy directions for sizes small, medium, large included. Embroidery transfer.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department, Prairie Publishers Limited, 60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

TEN COMPLETE PATTERNS to sew, embroider, crochet—printed right in the Alice Brooks Needlecraft Book! Plus many more patterns to send for—including ideas for gifts, home accessories, toys, fashions! Send 25 cents now!

Funny and Otherwise

"So you were in hospital 10 weeks? Must have been pretty ill."

"No, pretty nurse!"

Jones: "Good evening, old man. Thought I'd drop in and see about the umbrella you borrowed from me—last week."

Brown: "I'm sorry, but I lent it to a friend of mine. Were you wanting it?"

"Well, not for myself, but the fellow I borrowed it from says the owner wants it."

"You owe me six months' rent. You must get a new lodger."

"Go without paying you? Never!"

"Darling, if I were to die, would you marry again?" she asked.

"That's hardly a fair question."

"Why not?"

"If I were to say yes you wouldn't like it, and to say never again wouldn't sound nice."

"My rose!" he whispered tenderly as he pressed her velvet cheek to his.

"My cactus!" she said, as she dodged his whiskers.

"What do you wish, miss?" the waiter asked the glamorous blonde.

"I'll have soup, fish, chicken, vegetables, ice-cream and wine," said the blonde.

"And what is your wish, sir?" the waiter asked her escort.

"I wish I hadn't brought her," said the fellow, sorrowfully.

On the way home from church father criticized the sermon, mother didn't like the organist, and their daughter thought the choir terrible. With schoolboy instinct of fair play, the son chipped in with: "Well, I think it was a jolly good show for ten cents."

"But, madam," the registrar's clerk explained to a film actress applicant, "the law compels me to record all previous marriages before I issue a licence."

"Good gracious!" exclaimed the prospective husband, "and I've got a taxi waiting!"

Traveller: "Why do you keep that goldfish in its bowl on your desk?"

Manager: "Because it's a novelty to have something opening its mouth without asking for a raise."

A lawyer was defending a man charged by his wife with desertion. For a time it looked as though it would be easy for the prosecution, but at the psychological moment the lawyer called the defendant to the witness-box. "Take off that bandage," he cried.

The man did so, exposing a black eye.

"Your honour," said the lawyer, "our defence is that this man is not a deserter. He's a refugee."

North Battleford Farmer Specializes In Arabian Horses And Aberdeen-Angus Cattle

NORTH BATTLEFORD, Sask.—George Iverson, of the Prince district, isn't one to follow blindly what his neighbors are doing. When he has what he feels are good ideas, he follows them, and so far he has done pretty well.

George specializes in two breeds of animals, neither of which is the most popular of its kind, but has had marked success with each. In beef cattle he has done well with his Aberdeen-Angus strain, and in horses, he favors Arabians.

Anyone who has seen his fine black herd can see why he is proud of them. Their quality isn't just chance. It cost George good solid cash, in a day when cash wasn't as plentiful as today, but his expenditure has paid real dividends.

His present herd sire, Craven's Eaton Marshall, pride of the 150 head of registered cattle, had for his grandsire, one of the greatest of all time in the Aberdeen-Angus field, the famous Earl Marshall. Craven's Eaton Marshall carries more of this famous strain than perhaps any other living bull.

George is almost as proud of his fine Arabians, which win prizes wherever he shows them. One of the first to bring these horses into Canada, and the first in Saskatchewan, the fine lines and good showing of the Iverson Arabians brings praise from all good horse lovers. Only this last summer, Mr. Iverson was winner of a trophy for the best showing in the hunter class at the North Battleford Fair, and he won it while riding one of his favorite Arabians.

George Iverson has built up a fine farm, including some three sections altogether, with his land at Prince, and ranch land in the Marlin area. Together with his wife Helga, and his son Clarence and daughter Jean (now married) he has proven to be a good neighbor, a successful breeder and an asset to the community.

Mr. Iverson recently held his first annual sale of his registered Aberdeen-Angus cattle which brought keen bidding and a lot of interest.—North Battleford News-Optimist.

An underwater mountain peak rising more than two miles from the ocean floor was recently discovered in the Pacific ocean, off the coast of Acapulco, Mexico.

MEASURING THE BORES

Tunnel template being used in British Columbia to prepare 44 district tunnels for the arrival of Canadian Pacific Railways "scenic dome" observation cars next year is an accurate, efficient, if makeshift contraption consisting of two-by-fours and twigs. Acting as delicate template "fingers," the twigs probe the sides and are of tunnels, and irregular, projecting rock is later stopped, or excavated. Here, a C.P.R. crew commences work in a curving tunnel west of Kamloops on the Vancouver division.

Statistics show that nearly one fifth of the households in Canada were overcrowded in 1952. An overcrowded house is one in

SERVE CANADA AND YOURSELF IN THE ARMY

Listen to "Voice of the Army"—Wednesday and Friday evenings over the Dominion Network

HERE AND THERE

Miss Peggy Rooney of Edmonton spent the past week visiting with her grandmother, Mrs. Erdorf.

John Davis of Orms, Alberta, brother of Mrs. Peter Kelly, Gleichen, died last week. The funeral took place Saturday.

Mrs. C. R. McIntyre returned to town last week after spending several weeks at the Pacific coast and at Kelowna visiting her daughter.

E. Crumb is busy these days fixing up his old flour mill for a place to put his school vans. He bought the building from the town sometime ago.

Ted Krause returned to town last week from Keg River, Alta., where he had been for the past several months looking after his property interests there.

Mrs. Ray Fairbourn of Cluny is at present confined to the Bassano hospital through illness.

The total population of the Blackfoot Indian Reserve is now 1360.

Mrs. E. Menard and granddaughter Karan, went to Red Deer Sunday. Mrs. Menard returned that evening.

Mr. Steve Dunn and Mr. and Mrs. John McIntyre of Calgary were Gleichen visitors for some hours Sunday afternoon.

The members of the Order of the Eastern Star held their annual card party last Wednesday evening in the Masonic Hall. The prize winners were as follows: Whist: Mrs. Tomlinson and Mrs. M. James; low, Mrs. W. Towers and Mrs. W. Snyderman. Bridge: Hugh James and Mrs. E. Crumb; low, Mrs. Fraser and Mrs. W. James. Bridge: G. Evans and Mrs. H. James; low, T. H. Beach and Mrs. Smith. Travelling prize, Mrs. G. Evans. Door prize, Mrs. A. Bain; lucky chair, Mrs. Rodominiski.

Mr. and Mrs. Floyd Sammons and Mrs. McKeever have left on a holiday to the States. In the meantime Mr. and Mrs. J. Hutchinson of Calgary are looking after the farm home of Mr. Sammons.

SEEDTIME and HARVEST

DR. F. J. GREENEY, Director, Line Elevators Farm Service, Winnipeg, Manitoba.

Sponsored by the following companies: Federal, Alberta Pacific, Pioneer, Canadian Consolidated, Paterson, McCabe, Parrish & Hanmer, Inter-Ocean, Independent, Filkin Milling, Canada West and Quaker Oats.

Grain Sanitation — Protect That Grain

Government authorities in the United States have warned grain farmers that, in the near future, the price of the grain they market will be affected not only by its weight, packaging and general condition, but also by its cleanliness. This means that otherwise good grain will be discounted if it is contaminated with insects, rodent, bird or other filth.

Sanitation Important. Canadian farmers have just as much at stake in grain sanitation as the farmers of the United States. As competition for the grain markets of the world increases, Canada, along with other grain exporting countries, can expect to find it increasingly difficult to sell dirty, contaminated grain, except at reduced prices. The stress that is now being placed on grain sanitation in the United States strongly suggests that, before too long, filth in grain will become an important market factor in this country.

Grain Protection. Bin cleaning, bin spraying, fumigation, rodent and bird-proofing of storage buildings, and rodent poisoning, if done properly, are measures that will practically eliminate the possibility of serious grain contamination. Where grain is stored in temporary buildings (sheds, barns, old houses, etc.) the problem of protecting it from insects and other pests needs special attention. Once grain is stored dry—keep it dry. The less moisture stored grain contains, the less attractive it is to insects. Regular and careful examination of grain stored on the farm to see that it remains dry, and is not being contaminated by insects and other pests is sound, practical insurance against serious contamination losses. Grain in storage is like money in a vault. Don't allow insects, rats, mice and birds to destroy your grain—and your income. Make sure that the grain you have in storage is protected and preserved.

OBITUARY

REV. CANON H. W. STOCKEN
Canon H. G. Stocken died last week in Victoria. Mr. Stocken was for some forty years a missionary at Old Sun School on the Blackfoot reserve. He retired to live at the coast more than 25 years ago.

FROM THE FILES OF THE CALL TWENTY YEARS AGO

The Boy Scout debate "Winter vs. Summer," in the I.O.O.F. Hall was well attended. The audience enjoyed listening to different points brought out by the boys. The side supporting "Summer" piled up the most points.

The Girl Guides under the leadership of Miss N. Downey met Friday evening.

Mr. and Mrs. W. Sutermeister and family have returned from a short holiday spent in Manitoba. They state there is no snow east of Medicine Hat. From Cluny to Gleichen they encountered deep snow.

Stan Young is back on his old job of looking after the rink for the Athletic Club. He has been busy the past week making ice but the heavy fall of snow last Thursday has hampered his work.

Mr. and Mrs. R. Greer of Calgary spent the weekend in town visiting his parents, Mr. and Mrs. J. Greer.

Miss Rose Woods entertained a number of her young friends last week to a birthday party.

Master Robert Black* celebrated his birthday one day last week with a party to which quite a number of his young friends were invited.

Miss Marie Lumsden entertained a number of her friends to party last Thursday afternoon. The time was spent playing games.

Messrs J. Black, Bob Brown and Tom Johnston attended the hockey association meeting in Calgary last Saturday.

"Does that Mrs. Gabber talk much?"

"Does she? You ought to have seen how sunburned her tongue was when she came back from her vacation this summer."

Everybody's Business

RURAL ELECTRIFICATION

The present-day supply of electrical power to 21,386 Alberta farms has been made possible by the co-operation of the farmer, through his Rural Electrification Association; the Provincial Treasurer, representing the Government of Alberta; and privately-owned power companies.

THE FARMER, working through his association, acts as organizer and arranges for equipment and for private financial assistance or government assistance. Since 1947, 299 Rural Electrification Associations have been chartered under the Co-operative Associations Act, administered by the Department of Industries and Labor.

THE PROVINCIAL TREASURER, under the authorization of the Rural Electrification Revolving Fund Act, passed during the last Alberta Legislature sessions, grants loans from a fund of \$10,000,000. In addition, the Provincial Treasurer can guarantee the borrowings of Rural Electrification Associations, provided interest on such loans does not exceed 3 1/2 percent over a maximum of 10 years. The Alberta Government has guaranteed borrowings of 192 associations for a total of \$6,406,685. The government has made direct loans of \$3,513,000 to some 80 Rural Electrification Associations.

THE POWER COMPANIES build and operate power lines at cost. Lines are built on an estimated cost basis; refunds are made when warranted by final cost figures.

Your government assists Alberta farmers with rural electrification, making every effort to expand high line facilities all over the province.

The availability of men and materials to build power lines is the only factor limiting your government's assistance to Rural Electrification Associations.

GOVERNMENT OF THE
PROVINCE OF ALBERTA
